ACA Large Employer Compliance Test

The employer is easily able to determine if it is an Applicable Large Employer (ALE) under the ACA for purposes of whether the employer shared responsibility rules (e.g., play or pay) apply.

This report example is calculating the FTE for 2 FEINs within a controlled group.

Client ID: 1023				ACA LARGE EMPLOYER COMPLIANCE TEST				From Date: 1/1/2013				
Client: Acme23				ALL Companies				To Date: 9/30/2013				
Report Generated on: 10/23/2013 11:08:16 AM												
IMPORTANT NOTE: In determining whether an employer is an applicable large employer, you must include all entities as a single employer under §§414(b), (c), (m), and (o) of the Internal Revenue Code. Thus, all employees of a controlled group of entities under §§414(b) or (c), an affiliated service group under §414(m), or under §414(o) are taken into account in determining applicable large employer status. Also, you must include any predecessor employer and successor employer.												
Warning: The date range specified is not a 12 month period and should not be used for Applicable Large Employer determination of Full Time Employees												
Report Total												
				Jan 2013	Feb 2013	Mar 2013	Apr 2013	May 2013	Jun 2013	Jul 2013	Aug 2013	Sep 2013
Full Time Employee Count	0	0	0	8	8	7	10	0	2	8	8	10
Total Hours For FTE	0.00	0.00	0.00	2,700.00	2,280.00	2,280.00	2,274.68	0.00	348.34	1,802.00	1,973.50	2,670.00
FTE Count	0	0	0	22	19	19	18	0	2	15	16	22
Total FTE Count				30	27	26	28		4	23	24	32

For Applicable Large Employer determination your FTE employee count is: **21**

The period selected is not valid for determining Applicable Larger Employers therefore you should NOT use the Total FTE count calculated above when determining whether you are a Large Employer.

ACA Full Time Look-back Report

This report enables the employer to manage full-time status of its workforce in accordance with the ACA's standard of 30 hours per week. This impacts the ACA rules on waiting periods, eligibility for minimum essential coverage and assessable payments (i.e., play or pay penalty).

The ongoing employee measurement period is the employer's standard measurement period. Each year, the employer uses a specific measurement period to look at all FT, PT and those variable hour new hires that have completed one unique measurement period. This part of the report would be used during the administrative period to determine eligibility for benefits going into the next stability period.

David Williams	104	OH	Hourly	6/4/2007	28		Unknown	6.10	311.00	Part Time	

Full-Time ACA: Employed an average of at least 30 hours of service per week or the equivalent of 130 hours of service in a calendar month if applicable large employer applies this equivalency rule on a reasonable and consistent basis. An hour of service includes hours where the employee is entitled to payment during which no duties are performed due to vacation, holiday, illness, incapacity (including disability), layoff, jury duty, military duty or leave of absence.

COBRA Event/Reduction of Hours: Because employee will lose benefit coverage at the start of the next stability period due to a reduction of hours, you must change the ACA status in iSolved and offer COBRA.

Offer Health Benefits: Because employee has changed from part-time to full-time status, you must change the ACA status and offer health benefits at the start of the next stability period.

Incomplete: Employee has not worked during the complete portion of the initial measurement period. Current status should continue.

Under 26: Employee is currently under the age of 26 and may qualify for coverage under a parent's health plan.

Over 65: Employee is currently over the age of 65 and may qualify for Medicare benefits. However, an employer may not force or coerce an employee to elect Medicare, and employment-based coverage will be primary to Medicare under the Medicare Secondary Payer Rules.

Missing Birth Date: Unable to assess options due to incomplete data. Employee birth date needs to be entered.

This part of the report would be used to keep an eye on the new hire variable hour employees during their unique measurement period and also at the end of the period to determine whether or not they are now FT or PT.

ACA Affordable Coverage Determination Report

The ACA Affordable Coverage Determination Report enables employers to determine whether minimum essential coverage is affordable for each full-time employee, based on the currently prescribed safe harbor methods. Failure to provide affordable coverage could result in an assessable payment (i.e., pay or pay penalty).

This sample report was used to evaluate affordability using the current plan and rate of pay.

This Affordability Report is a projection tool for use by both the broker and the employer. The report allows an employee contribution to be entered based upon new plan year expectations and does the calculation using the prior year's W-2. For example, you would enter an amount of \$5,000, which is what the insurer is estimating as employee only cost, and the system uses the prior year's W-2 to calculate whether the plan you're considering is affordable.

Joe Young	464	Projected Annual Employee Cost	5,000.00	0.00	0.00 %		0.00	0.00
* Estimated Wages (Hired mid-year)			Number of employees above affordable threshold:		6		25,514.86	2,126.24

	Annual	Monthly
Total Reduction in Employee Benefit Cost to Comply:	25,514.86	2,126.24
Potential Maximum Penalty for Non-Compliance:	18,000.00	

IMPORTANT NOTE: This report assesses your group health plan's affordability based on most recently available W-2 box 1 wages and the employee-only lowest cost option and is therefore only an estimate. The true test of affordability will occur during the applicable tax year when the rates of pay and employee-only lowest cost option may be different.

* Total Reduction in Employee Benefit Cost to Comply: This number represents the total amount of annual decrease in employee benefit cost to bring every full-time employee under the 9.5 percent affordability threshold if the rate of pay remained the same.

* Potential Maximum Penalty for Non-Compliance: This number represents the total amount of tax penalty an employer would pay if every full-time employee above the 9.5 percent threshold obtained subsidized coverage through the Health Insurance Marketplace (Exchange) for all 12 months of the applicable tax year.

iSolved reports will continue to be enhanced and changed to meet changing ACA regulations and employer needs.
